---

## Experience

### LearningFuze Web Development

**April 2015 - Present**

Irvine, CA

- Completed 12 week full immersion bootcamp that culminated in over 10 hours a day of training.
- Utilized Github version control for all projects and assignments in an agile development environment.
- Collaborated with senior developers to implement web-based applications and to ultimately create a final project of our own vision using Node.js, Javascript, MySQL, Express and the Google Maps and Spotify Web APIs.
- Trained in an environment that emulated real-world practices in order to prepare for a variety of roles in the web development world.
- Managed a group repository using Github to coordinate multiple team member's code.

### Yard House Inc.

**September 2012 - March 2015**

Irvine, CA

- Worked in a chaotic high-volume restaurant that required excellent organizational skills.
- Satisfied patrons through excellent customer service and by possessing a detailed knowledge of product offerings.
- Thrived in a team-centric environment where communication was a key factor to successfully conduct all aspects of service.

### VinControl

**May 2011 - September 2012**

Irvine, CA

### California Pizza Kitchen

**September 2007 - April 2011**

Mission Viejo, CA

## Education

**Orange Coast College**

**September 2011 - May 2014**

AA - Expected completion in Spring 2016

- Studied Computer Science taking courses in Java, C++, Software Engineering and Computer Architecture
